

The hectic pace of our modern lifestyle welcomes products that rate high on convenience and ease of usage. Health, hygiene, cleanliness and freshness are parameters that cannot be compromised at any cost. Everyday we fight pollution and harmful germs in our endeavor to maintain a healthy and energetic life. As our primary source of nourishment vegetables, fruits and cooked food items need to be consumed in their most edible state, Wrap All suits the needs of today and protects your food to maintain all the nourishment.

Pragya Flexifilm Industries, An ISO 9001 : 2015 Certified Company, manufactures PVC Cling Film, LDPE Stretch Film and Aluminium Foil under the brand Wrap All. With state of the art facilities, the company's product adheres to the highest standards of food grade quality. Wrap All is available in wide range suited for hospitality, commercial, home and industrial applications.

Wrap All Cling Film is well suited for all food items and industrial applications. The really transparent look and smooth feel of the film makes it almost invisible. To add to it, the film has great barrier properties which helps in maintaining the authentic look and freshness of the food that is being covered. Wrap All is compatible in high and low temperatures. Hence the cling film can be used to store food in refrigerators and heat food in microwave oven without changing food content and quality.

For domestic and commercial usage in hotels, hospitals, canteens, cafeterias, airlines, etc. Wrap All is an ideal wrapping option.
